Career Objective

Aspiring software developer skilled in building full-stack applications with technologies such as Vue.js, Node.js, MongoDB, MySQL and C#. Experienced in creating dynamic, user-friendly platforms and collaborating on team-driven development. Seeking to contribute technical expertise and innovative solutions to a forward-thinking software development team.

Skills

Front-End Development: HTML, CSS, JavaScript, Vue 3, Bootstrap
Back-End Development: Node.js, Express.js, C#, SQL, MongoDB
Tools & Technologies: Git, REST API, MVC Architecture

Applications

Keepr

- **Role**: Full Stack Developer
- Built a secure web application for creating and sharing visual content.
- Architected back-end APIs with C# and .Net Web API, enabling efficient data handling.
- Designed intuitive front-end interfaces using Vue.js to enhance user engagement.
- Integrated MySQL for scalable data storage, ensuring reliability for over 500 active keeps.

Logpose

- **Role**: Developer Collaborator
- Developed an adventure travel platform incorporating GeoJSON to create geolocation-based experiences.
- Enabled real-time location validation and user interaction using map APIs and geoquery features.

AllSpice

- **Role**: Full Stack Developer

- Built a recipe-sharing platform with features for creating, favoriting, and managing user recipes.
- Developed a dynamic front-end with Vue.js and ensured smooth data flow with a C# back-end.

Tower

- **Role**: Full Stack Developer
- Designed an event management application where users can create, join, and comment on events.
- Enhanced performance with optimized database queries and implemented robust commenting features.

Work Experience

Material Handler
Marathon Cheese Corporation | May 2024 – August 2024

- Coordinated task rotation and team collaboration to meet production goals.
- Streamlined processes to ensure the timely fulfillment of 2–5 daily company orders.

Insulator
Sosa Insulation | December 2019 – January 2024

- Enhanced energy efficiency by installing insulation in over 100 residential and commercial buildings.
- Ensured strict compliance with safety standards and energy codes.

Education & Certifications

Certification in Full Stack Software Development
Boise CodeWorks | August 2024 – November 2024

Associate of Applied Science
College of Western Idaho | January 2022 – May 2024
